Our Impact

Last year, we answered 10,000+ calls from people reaching out for help. Each caller speaks to a master's-level social worker who completes a bio-psycho-social assessment. This specialized assessment allows us to determine the caller's needs and create a plan of care.

Here are a few other ways that we helped in 2022 -2023:

250,000+

hours of in-home care for more than 200 Holocaust survivors

30,000+

counseling and psychiatry sessions to assist children and adults during challenging times.

10,000+

people who call our C.A.L.L. Service (Community Access Life Line) to assist in their time of need.

1,500+

fresh, hot holiday meals delivered to seniors, individuals and families.
